IT Starts with a cable and ends with a solution.....

IPNS believe that as a service company, the company is only as good as the people that work in that company. To that end, we only employ capable and experienced personnel with a 'can do' attitude.

IPNS personnel have been advising on, designing and installing IP network infrastructures over many years and because of that, we are able to provide customers with systems that are not only suited to the business applications they use but also for the environment in which they are being used.

IPNS work on the three B's principle:

Building – Bandwidth -Budget

We accept no less than our customers would accept. A high standard of work, a courteous and reliable service and an affordable price.

Customers and Services

IPNS work in many different industry sectors, including the arts, education, construction and manufacturing providing support on a variety of different services to a number of organistaions.

These are just a few of our clients:

Royal Shakespeare Company, Birmingham City University, Pilkington Automotive, NSG, SMH Fleet Solutions, Mettis Aerospace

And these are a few of the services that we provide to those customers:

IP CCTV, access control, intercom systems, AV solutions, copper and fibre network cabling, WIFI and PTP systems, network configuration.

Solutions

IPNS supply and install a range of systems from various manufacturers, which helps us to provide greater choice and flexibility when it comes to finding the right solution to meet a client's needs.

For access control, we work with manufacturers such as Paxton, BPT, PAC, Videx and others to provide networked and standalone systems for building access. Forr CCTV, we work with Samsung, Hik, Axis, Mobotix and Vista and for our infrastructure solutions we have Excel, Connectix and Ubiquiti, which allow us to provide a flexible and robust infrastructure design even in the most challenging of environments.

IPNS will provide you with the information that you need to help you to make the right choice for your business.
